PROFILE

After finishing my studies for master of electronics and ICT engineer technology at KULeuven, Campus De Nayer, I started my professional career as a technology advisor at KPMG. There I had the chance to develop my interest in Cyber Security while gaining an insight in different business processes. Soon after I started at KPMG, I began my education as Computer & Cyber Crime Professional at the HoWest in Brugge (planned to finish January 2020). I am currently open for new opportunities, where I can contribute to a safer cyber environment, while broadening my knowledge and feeding my interests in Cyber Security.

EDUCATION

Hogeschool West Vlaanderen	Brugge, Belgium
<i>Bachelor applied informatics: Computer & Cyber Crime Professional</i>	2018- January 2020
- <u>Certifications</u> : Certified Ethical Hacker (CEH)	September 2019

EXPERIENCE

KPMG

Techology Advisor

Berchem/Zaventem, Belgium

september 2018-now

As a technology advisor at KPMG Advisory, I mainly worked on technical and business cyber security projects and IT audit project. As part of the Cyber & Privacy team, I performed a series of **Cyber Maturity Assessments, ISO27001 assessments, Penetration Tests and Incident Response engagements**. As part of the IT audit team, I got a deeper understanding of different business processes. Furthermore, I lead meetings with different high-level IT stakeholders in different companies during these engagements.
